ShoreTel-Punch Alert Integration

 Punch Alert "The Only All in One Mass Emergency Communication Platform"

♦ **Improves Security**

Pressing the panic button allows any user on campus to instantly alert on-site emergency responders of a potentially life threatening situation.

♦ **Streamlines Communication**

Enables users to submit relevant content or information and emergency responders to deliver mass updates and instructions during emergencies.

♦ **Provides Location Awareness**

Captures the location of the initial report and actively monitors the location of everyone on campus until the resolution of the emergency.

 ShoreTel "Brilliantly Simple"

♦ **Integration**

Makes it possible to report an emergency from any ShoreTel phone.

♦ **Reporting an Emergency**

⇒ Dial 911 or designated extensions to report emergencies

⇒ Categorize emergencies based on extension dialed

⇒ Report emergencies via ShoreTel Mobility

⇒ Capable of reporting multiple emergencies

⇒ Reports User name and Extension to Responders

⇒ Sends notifications to iPhones and Android devices
