

Cloud vs. On-Site Which is Right for your Business?

Do you currently own your own phone system?

Yes

No

Do you plan to own your own system and switches in the future?

Yes

No

Do you have dedicated IT staff to manage your phone system?

Yes

No

How do you want to pay for your new phone system?

Upfront

Monthly

Integrations?

Complex

Simple

Having limited IT resources managing phone systems leads to communication challenges.

Cloud allows you to right-size your communications for your IT staff.

Although you seem to be a good fit for cloud, complex integrations are best implemented on an on-site system you have more control over.

ON-SITE

It seems like on-site is the best fit for you.

FULL CONTROL

Maintain complete control and full ownership of your phone system.

FULLY CUSTOMIZABLE

Exactly what you want, the way you want it.

UPFRONT COST

Pay once for your phone system.

SECURE EXISTING INVESTMENTS

Protect existing investments in equipment, contracts and licenses.

CLOUD

You sound like a perfect fit for Cloud.

CONSISTENT MONTHLY COST

Pay only for what you need, when you need it.

SCALABLE

Ideal for rapidly growing or multi-site businesses.

REMOTE WORKFORCE

Consistent user experience no matter the device or location.

FLEXIBLE

Easy to add or change features, users.

EASY TO USE

Removes complexity, so IT can focus on other business needs.

Now that you know what kind of system that best fits your unique business needs, contact a technology expert to discuss your specific options.
