

Leverage Your Mitel Investments Now and in the Future

Did you know Mitel's 6900 series phones work on other Mitel platforms as well as RingCentral?

Extend the life of your Mitel MiVoice Connect system while future-proofing for upgrades and investments later. If, and when, you are ready to make a move, CNP can set up Mitel 6900 model phones on other Mitel platforms or RingCentral's MVP, providing you with an easy path to migration and the ability to test-drive new options before making any commitment.

Why Choose CNP to Future-Proof Your System?

- You want updated phones but have concerns about investing in a platform that you expect to migrate away from within 1-5 years
- You're not sure cloud phone systems are right for your business just yet
- You want to minimize the initial investment in new phones as part of your move to a cloud system
- You need the migration to be simple: no need to unbox, set out, train users on, and most importantly, pay for new phones

Additionally, CNP provides Mitel maintenance and professional service programs that match the way your business works:

- Hardware Maintenance and Repair Services
- Software Assurance Support and Upgrades
- First Call Support Help Desk and Response Center
- Total Care Managed Administration
- Phone System and Handset Upgrades and Easy Swap Program
- Complete Training Curriculum

Ready to test your 6900 Phones on RingCentral's MVP?

CNP specializes in helping clients maximize technology lifecycle investments while providing upgrades and modernization that support new upgrades and investments later. As a Platinum Mitel solutions partner, we are ready to answer your questions and help guide you to the best future solutions for your business.
