Congratulations, you've successfully moved to the cloud!
But that doesn't mean you're off the hook for managing your communications platform.
Now that you have your shiny new cloud solution, make sure you are taking full advantage of it to help drive organizational and business operations efficiency and world-class customer service.

Are you getting all you can from your cloud solution?

- Have you rolled out everything that you're paying for or paying for more than you need?
- Have your business needs evolved but your systems hasn't?
- Are your users taking advantage of the features and functionality that will enable them to be as efficient and effective as possible?
- Are you really prepared for a DR situation, not just technically but organizationally?
- Do you simply want to get out of the business of managing your phone system?
